

## Kimplas Make "Trustlene Brand" Saddle Clamp - For Pipe Size 32 to 50 MM.

### Overview :

- These tools have been designed to hold saddles onto pipe at the correct pressure of 0.5kN, before and during the electrofusion process
- They work with tapping saddles, branch saddles and purge saddles
- Saddles with stacks of 32 mm 50 mm can be held
- The tool has been designed to hold saddles on pipe up to 50 mm diameter
- The tool is a Pillar type design

### Specifications :

- The tool is designed to hold pipe up to 50 mm diameter
- The clamp is made from plated Aluminium & Nylon
- Size 42 cm x 16 cm x 8 cm
- Weight 3.1 kg
- These tools are designed to comply with British Gas GISPL2-5:2006 specifications

### Features :

- The tool will load the saddle onto the pipe at the correct pressure of 500 Newtons, ensuring a high quality joint
- With simple operation, the knob is turned to compress the load spring until the indicator pin shows on the knob
- The U shaped foot of the clamp helps for bottom grip & support to the pipe
