

## Environmental Policy

We at Kimplas Piping Systems Limited are committed to

- Manage all operations in an environmentally sustainable and economically feasible way.
- Produce a product that will be eco-friendly, recyclable and safe to use.
- Protect human health, flora and fauna along with Natural Resources.

We will achieve these objectives by providing appropriate Environmental Protection, education to all our employees and also by implementing safe and Innovative Environmental Technologies with focus on continual improvement.

We understand our responsibility to prevent endangering the environment & to maintain strict compliance to laws & regulations pertaining to protection of environment.
